

# CHOOSE THE BEST STAMP TO FIT YOUR NEEDS

## Xstamper

Xstamper are state-of-the-art technology which allow up to 50,000 impressions before re-inking. Every Xstamper is backed by a lifetime guarantee.

## Premium Pre-Inked Stamp

Pre-inked stamps offer the ultimate in convenience. There is no ink pad required. The stamp is designed with a new and improved mount.

## Self-Inking Stamp

Unlike the traditional rubber stamp, this has its own built in pad which eliminates the messy stamp pad. It's fast, clean, easy to use and it's re-inkable. Available in other colors by request.

## Self-Inking Machine

Built for long life and heavy duty use, such as Bank Tellers, Mailrooms, Shipping Departments, and Ticket Counters. Available with rotating date bands or plain, without dates.

## Rubber Stamp

The most economical marking device available. Used with a stamp pad. Available in 3 styles, traditional moulding, knob handle (for larger stamps), and rocker mounts and / or aluminum handles (for extra large stamps).

## Die Plate Dater

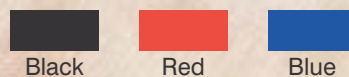

More economical than a self-inking dater, but still built for long life and heavy duty use. Comes with rotating date bands. Popular with the banking industry for lasting quality. For use with stamp pad.

## Automatic Numbering Machine

All metal, quality construction. Number consecutively or in duplicate, triplicate, quadruplicate, sextuplicate, twelve times or repeated indefinitely.

## Inspection Stamps

Marks on almost any surface. Comes pre-inked or pad in cap. Available with standard ink for paperwork or with fast drying ink for industrial non-porous applications, such as metal, glass, plastic, photographs and more.

# Xstamper Re-Inking Instructions

## HOW TO RE-INK YOUR XSTAMPERS

Time Required: After inking allow 12 hours before using to allow ink to penetrate the stamper system. If after this time copy is still light, re-ink again.

1. Refill with the same color ink as your original stamp.
2. Because of the different models of Xstampers, there are different ways of re-inking. Follow the instructions and pictures for your particular stamp. Make sure ink is completely absorbed when applied to reservoir.
3. After inking, leave Xstamper in an upright position to prevent leakage and to allow complete ink absorption. Xstamper should be left standing for approximately

12 hours. Additional re-inking during this time may cause permanent damage.

- Xstampers should only be used on paper.
- Drying times vary depending on type of paper used.
- Use protective cover to protect stamp surface when not in use.
- If spillage occurs on hands during re-inking wipe with rubbing alcohol and wash with soap and water.
- To prevent stains, keep away from clothing.
- Keep Xstampers out of the reach of children.

### PROCEDURE ON ORDERING CALIFORNIA NOTARY STAMPS

- To order a California notary stamp, send ORIGINAL "Certificate of Authorization" issued by the Office of the Secretary of State (no faxes or photocopies accepted).
- The "Certificate" authorizes a maximum number of stamps for that notary. If you want to order more than one the "Certificate" must authorize as such.
- We will affix a copy of the stamp on the "Certificate of Authorization" and send original to the Secretary of State. A copy will be retained by our company and one will be sent with your stamp.

## OFFICIAL NOTARY SEAL REQUIREMENTS

### Description of Imprint of Official Seal - ORS 194.031(1) - (2)

160-100-100 (1) An outline of an imprint of an official seal of a notary public shall be a rectangle measuring 3/4 inch high and 2-3/8 inches long formed by a continuous solid or braided line.

(2) The imprint of an official seal of a notary public shall contain within the outline border:

(a) The state seal, as described in ORS 186.020, measuring one half inch in diameter and located in the upper left corner of the official seal;

(b) The following words, in descending order, centered in the official seal to the right of the state seal;

(A) The words "Official Seal". The words shall be printed in not less than 8 point sized type, bold print, and in capital letters;

(B) The name of the notary public. The name shall be printed in not less than 8 point sized type, bold print, and in capital letters;

(C) The words "Notary Public - Oregon". The words shall be printed in 8 point sized type and in capital letters;

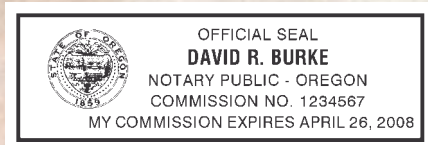

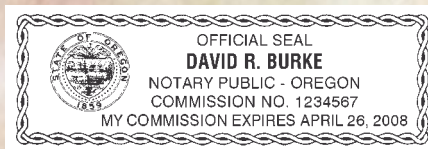

(D) The words "Commission No." immediately followed by the commission number. The words shall be printed in not less than 8 point sized type and in capital letters;

(E) The words "My Commission Expires", immediately followed by the notary public's expiration date, expressed in terms of the month, day and year, i.e. "January 1, 1990" and printed in not less than 8 point sized type and in capital letters.

(3) The imprint of an official seal of a notary public shall be made with black ink:

(a) Of a type that will not be removable under normal conditions; or

(b) Of a type considered permanent, such as India ink, when applied to plastic or mylar surfaces.

### Filing Imprint of Official Seal with Secretary of State - ORS 194.031(4)

160-100-140 A notary public shall file the following information with the Secretary of State within ten days after the date the notary public receives the notary public's official seal and Certificate of Authorization from a vendor of official seals:

(1) An imprint of the notary public's official seal. The imprint shall be placed in the location designated for the imprint on the Certificate of Authorization;

(2) The Certificate of Authorization. The Certificate of Authorization shall be the original Certificate of Authorization issued by the Secretary of State to the notary public. The Certificate of Authorization shall be completed by the vendor with the information required on the Certificate of Authorization.

## EMBOSSER IS AN OPTIONAL ADJUNCT TO YOUR NOTARY SEAL

# Stencil Supplies

## Stenciling Kit

### JR53K Stencil Roller Kit \$54.00

Ink is applied to the pad which acts as a supply reservoir. The roller is then rolled across the pad several times where it absorbs enough ink for many stenciled impressions. Perfect for stenciling on virtually any surface such as, metal drums, pipes, steel plates, bins, pallets, boxes, etc.

\* All Roll-A-Stencil Jr. Kits include a roller applicator, one pint of Type D Black Ink for all-purpose marking and a JR-50 Ink Pad Box. Kits are available with black ink only.

## Spray Cans

### Marsh "AN" Spray Inks

AN Spray Inks -- Convenient aerosol cans of Marsh spray ink for stenciling, for color-coding pipe and bars, etc. Use whenever an instant-drying, flat-finish mark is needed. Excellent on rough surfaces where a roller or even a brush might not work. Waterproof and permanent.

# Signage, Custom Signs

For a unique look, create your own custom sized signage. Available in the following formats: Flat Wall Sign, Tent Signs or Pedestal Signs. Custom sized signage is a great choice for counter and wall signs or as a replacement of your old outdated signage.

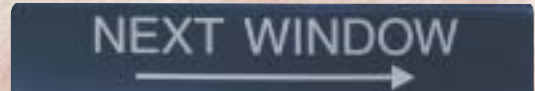

## PSFWS Flat Wall Sign

Mounting Options when ordering: Double-sided Tape (on back), or Screw Holes.

## PSTS1/PSTS2 Tent Sign

PSTS1 - Engraved on one side  
 PSTS2 - Engraved on both sides  
 Tent Sign: Multiply finished sign height by 2 to determine overall height.

## PSPS Pedestal Sign

Free-standing engraved pedestal signs are made by bending one-third of the plastic to form the base. No frame needed. Pedestal Sign: Multiply finished sign height by 1.5 to determine overall height.

## Character Sizes

To help figure out the overall size of a custom sign, remember to allow the same amount of space for each letter from left to right as the height of the letter. Allow one letter space at the right and left end of the longest line. Allow for a border at the top and bottom of the sign. If your sign has multiple lines, allow space between lines. A safe formula to use is one half the height of letters.
